"Louis! Listen, Louis! Listen to the bells! It was your message that I gave them! Independence! It is come at last, and you have gone to die because I betrayed you. But it was to save you, dear! Will you ever understand? Can you hear them, Louis? The bells! Come back! Come back to me—only to hear them ring! Only to understand!"

General Lord Howe sat one evening a month later aboard the Duchess of Gordon, and Lord below Staten Island, playing at draughts. His late surrender of Boston to General Washington had ruffled his equanimity. But now Clinton had joined him, haggard from the treading Moultrie had given him in South Carolina, and his lordship's brother, Admiral Lord Howe, had come to the harbor with a prodigious new army in a fleet of 120 sail. My lord, therefore, felt very comfortable again.

The general's opponent at the table, Lord Chetwynde, wore lace in his sleeves and smoked a foreign cigarette, from which he flicked the white ash daintily with his little finger. As he sat, one felt his eyes, a kind of cold, keen, speculative humor in them. Another officer, Sir Evelyn Clarke, sat with legs wide apart near by. The glazed scenes were brilliantly lighted, and the room rocked pleasantly as the ship rose and fell to the wash.

An aid, pausing at the cabin door, saluted.

"Well?" asked Lord Howe. "Any one else for me?"

"No, sir; for Lord Chetwynde. He brings a personal communication to his lordship."

"Very well; bring him down; with your permission, of course, my lord." And his lordship turned to the game again.

"I would the admiral might haste with his olive branch," he yawned, studying the draughtboard through lazy eyelids. "Tis most uncommon dull here. 'Hell, Hull and Halifax'—egad! I'd as lief be a prison governor at any one of them."

"Less room for your cursed experiments, I suppose, Charles. You were always fond of them at Halifax," commented the single spectator in an Irish brogue. "Why, my lord, I remember just before he sailed (may you never run another jail, Charles) he let a rascal out on a writing service and took his promise in secret to come back to him in a month to the noose. I hope you'll invite me to meet him when he returns. Eh? What? May I bet the devil my head, but there he is now!"

The pair at the table looked at the face of the man who had entered and at his dress of purple velvet frayed with travel, and Lord Chetwynde started to sudden incivleness.

"Louis Armand!"

The newcomer bowed and stood silent, waiting.

"You return in accordance with our contract, I presume?"

"Yes, your lordship."

"You are a day late."

"I was not aware of your lordship's transference."

"Burn me, but he's been to Halifax!" exclaimed Lord Chetwynde under his breath.

He sat a moment nursing his chin. Then he seized a paper, wrote a line

and added his signature. "I am already informed of your attempt," he said, "and of your failure. Egad, these petticoat patriots are everywhere! However, that was not your fault. I regard only the honesty of your purpose. Here is your release from the

penalty. Consider yourself at liberty."

Armand read the paper and then handed it back. "I cannot accept it, your lordship," he said.

"Why not?" demanded Lord Howe in astonishment.

"I did not intend to deliver the message given me to the congress. Had I been admitted I should have delivered a very different one."

"May I bet the devil my head!" ejaculated Sir Evelyn.

Lord Chetwynde flung away his cigarette, his keen eyes on Armand's, and tore up the paper slowly. "That alters the case," he said. "My lord, I suppose I shall have to trouble you to hang this honest renegade for me."

"Too pleased!" said Howe. "The first thing in the morning, Charles. Take him on deck and come and finish the game."

"My obligation is at an end?" asked Armand.

"Of course, of course," acquiesced his lordship. "Excuse me, my lord; I'll be back presently. Precede me, if you please."

He opened the door, and his prisoner passed before him to the star lighted deck. The next instant Armand had leaped to the bulwarks and thrown himself into the sea.

There was strident confusion, a running forward of marines and a turning of lanterns on to the water. "Better lower a boat," advised Lord Chetwynde.

"No time for that," Sir Evelyn's voice was at his elbow. "A hundred yards and you'll never find him. Guard, send your surest marksman here to pick him off."

"There he is!" bawled a voice as the sharpshooter came forward. "I see his head."

"I think," said Lord Chetwynde, "laying a shot on the weapon, 'that I'll have a shot myself.' Taking it from the man's hand, he laid the long barrel on the rail and drew a slow and careful sight."

"Better be quick, sir," counseled the guard anxiously. "He's a strong swimmer. He'll be out of range presently."

"Sir Evelyn," spoke his lordship test-

ily, "a little farther from my elbow, please. There, I've lost sight of him! Eh? Where? Oh, yes." He sighted again with deliberation and fired.

"Missed, by Harry!" he cried in a tone of chagrin.

The stars rocked dimly in the tide. "Too bad, sir!" said the captain of the marines. "No use to lower a boat now. 'Tis too dark to find a whale. He'll be ashore in twenty minutes."

"Another of your blasted experiments, Charles," said Sir Evelyn.

THE INDIANA PLAN

Prevents Such Exhibitions as Illinois and Wisconsin Have Witnessed.

Indianapolis, May 21.—The result of the Republican state conventions in Illinois and Wisconsin are viewed with considerable alarm by the Republican leaders who participate in the national political game. They don't like the appearance of things, although they are not ready to admit that the trouble will lead to the loss of the tickets in the two states. As to Wisconsin, it seems that many leaders, including Chairman Goodrich and Secretary Sims of the state committee are more in sympathy with Governor La Follette than they are with the bolters, who are led by Senators Spooner and Quarles. Goodrich and Sims made trips into Wisconsin last summer and are confident that the rank and file of the Republicans prefer La Follette. It is being pointed out by the Republican leaders here that in Indiana such a condition of affairs as now exists in Illinois and Wisconsin would not be possible, inasmuch as the governor is not permitted to have a second term in succession in Indiana. The trouble in Illinois seems to be the result of the efforts of Governor Yates to extend his service through another term, while in Wisconsin Governor La Follette is seeking a third term. The party leaders here say that the Indiana system of giving but one four-year term is much better for party harmony as well as good government.

A new era in the progress of the interurban electric road business was noted here today when a massive but elegant car was moved slowly through the downtown streets. It was one of the first interurban sleeping and parlor cars constructed. It is to be the interurbans what the Pullmans are to the steam roads. It is equipped for long trips, and it is probable that the first service of the kind in the country will soon be established between here and Dayton, O. The cars are geared to a speed almost equaling that of the steam road flyers, and it is declared that it will only be a question of a comparatively short time until the interurban sleeping car service will be general. Another innovation for interurbans will be a big Sunday excursion to Chicago in conjunction with one of the steam roads.

The William Randolph Hearst movement in Indiana is not to be dropped merely because the delegation was instructed by Judge Parker. The palatial headquarters at the Claypool hotel have been closed, but another headquarters has been opened in the Newton Claypool building, where the Hearst Indiana literary bureau was located. J. Oscar Henderson is to remain in charge of the headquarters, and the fact that he will have one or two assistants all the time is regarded as an indication that Hearst does not intend to let up in Indiana. It is rumored that there will be one or two Hearst specials from Indiana to the St. Louis convention or the purpose of showing to the crowd that Indiana is not entirely for Parker in spite of the action of the state convention.

Chairman Goodrich of the state committee went to Chicago last night on private business, but he will probably complete arrangements for headquarters for the Indiana delegation. It is the understanding that the Hoosier delegates will have headquarters at the Auditorium Annex, but many of the leaders will stop at other hotels. There promises to be an unusually large delegation from this state, and while there is no definite movement, it would not be surprising if the Indians should launch a presidential boom for Charles W. Fairbanks for 1908. It is understood that arrangements will be made for three or four special trains for the Indiana politicians to Chicago.

GATHERED THEM IN

Seventy Prisoners Taken Out of New York Poolrooms.

New York, May 21.—Simultaneous raids on twenty-two alleged poolrooms and poolroom exchanges were made here by the police, acting under orders from Police Commissioner McAdoo. Axes, hammers and crowbars were used at many of the places, to batter down specially constructed iron and steel doors and to gain entrance through barred windows. Less than an hour was spent at the work and police officials are highly pleased with the results. Seventy prisoners were taken and many telephones and telegraph instruments were confiscated, besides a number of books and racing charts that were found in the rooms.

Whistling for His Pay

Dublin, Ind., May 21.—Peter Sloat served ninety-four days as flagman at a Panhandle crossing, but the company declined to pay for his services. Now he has brought suit against the town corporation to recover \$94 and costs of litigation, the town board refusing compensation on the ground that it did not employ him.

A BROTHER'S TEST

Dr. William Gillespie Gives Interesting Evidence In the Rising Sun Trial.

HE ASSURED HIMSELF

That It Would Have Been Impossible For His Brother's Gun to Have Killed Their Sister.

Series of Interesting Experiments Admitted As Evidence In the Case.

Rising Sun, Ind., May 21.—The evidence in the Gillespie trial is followed with close interest by the crowds which continually throng the courtroom. There was much subdued excitement when Dr. William Gillespie of Cincinnati was called to the witness stand. He is a brother of James Gillespie, Mrs. Seward and the murdered girl, and he and Myron Barbour married sisters. Dr. Gillespie was on the stand for several hours. He gave at great length experiments made by him to establish that the murder was not committed by James Gillespie's 16-gauge choke-bore shotgun. The testimony was allowed to go to the jury with the understanding that no expert would be permitted to say that the shot could be similar to the fatal shooting. The doctor had placed two targets to represent the height of Elizabeth Gillespie's head when she was shot, and of the shot area on the west wall. The distance between these targets was also the same as between Miss Gillespie's head and the wall. By firing a gun like James Gillespie's gun, he found the shot at the first target scattered seven inches and at the second target nine and a half inches. A musket scattered fourteen inches and 24 1/2 inches. An old horse-pistol, 16-gauge, 18 inches and 24 1/2 inches, while the shot from the murderer's gun scattered 30 1/2 inches on the west wall, equivalent to the second target. From this he concluded that James Gillespie's gun could not have been the weapon used in killing Elizabeth Gillespie.

HAIRS IN EVIDENCE

Microscopic Test Admitted in Evidence in Schafer Case.

Bedford, Ind., May 21.—The state continues to hurl missiles from its heaviest guns in the trial of James McDonald, charged with the murder of Sarah Schafer, the Bedford school teacher. Probably the most important witness yet called was Dr. Gardner, who gave expert testimony concerning the hairs found in the dead hand of Miss Schafer and eight hairs cut from the mustache of McDonald by a barber. What effect these hairs will have on the jury is problematical. If they have the effect the prosecution desires they will go a long way toward proving McDonald guilty.

Dr. Gardner testified that he was a member of several microscopic societies and that he had a complete set of instruments. He examined the hairs cut by a barber from McDonald's mustache, he said, and compared them with two of the hairs found between the fingers of Miss Schafer.

The two hairs from between the fingers of Miss Schafer, said the expert, were evidently from the mustache of a man, while others, which were long and fine, more resembled hairs from the head of a woman, although they might have been from a man's head. The witness said the two short hairs found in Miss Schafer's hand were similar to those taken from McDonald's mustache presented by Barber Kennedy. In the opinion of the witness the mustache hairs all came from the same face, while the others showed a difference in length and color.

On cross-examination Dr. Gardner said that there was a possibility that the mustache hairs were not from the same face and admitted that dead hairs would shrivel. The defense conducted a rigid cross-examination and strongly brought out the fact that the doctor could only pronounce a positive perfect resemblance between two of the hairs cut from the mustache by the barber and those found in the dead girl's hand. The hairs were admitted as evidence after strenuous objections by the defense, which claimed the hairs taken from Miss Schafer's hand had been sent to Louisville for examination and that there was no proof that those offered in court were the same.

Roth Was Acquitted

Boonville, Ind., May 21.—"Not guilty" is the verdict in the Roth-Keeper murder case, returned at 7 o'clock last evening, after the jury had been out less than half an hour.

Only Nine Were Saved

North Sydney, N. S., May 21.—The worst marine disaster in the history of the St. Lawrence river coal trade occurred yesterday off Cape North, the northernmost point of Cape Breton, when the British steamer Turret Bay, laden with coal and bound from Sydney to Montreal, struck on the rocks off St. Paul's Island, and sank in deep water under twenty minutes later, causing a loss of thirteen lives. Only nine men from a crew of twenty-two were saved.

SEEKING PEACE

Presbyterians Hold Out Olive Branch to Southern Brethren.

Buffalo, N. Y., May 21.—The 116th general assembly of the Presbyterian church in the United States of America, now meeting in Buffalo, will probably be a history-making body. The second day of the assembly was replete with indications of a church union that will greatly strengthen that denomination. Sentiment strongly favored union with the Cumberland church, while the Presbyterian church in the United States, another Southern body, may come within the fold within a year or two. The assembly of the Cumberland church is now meeting in Dallas, Tex., and the assembly of the other Southern church is meeting in Mobile, Ala.

The assembly, by an overwhelming vote, made the report on union with the Cumberland church a special order for next Thursday. Subsequently the assembly, with only one negative vote, went on record as wiping from the minutes of previous assemblies all aspersions and charges reflecting on the Christian character of the Presbyterian church in the United States, the Southern body. In 1852 the general assembly of the Presbyterian church in the United States offered the olive branch to the assembly of the Presbyterian church in the United States of America (Northern), by wiping from its records harsh things it had said about the Northern church in the civil war days. The Northern church's reply contained a rider which was more offensive in the eyes of the Southern church than certain things to which the Northern church had previously given voice. In saying that it took back things it had previously said about the Southern assembly, the Northern assembly took pains to remark that this action did not include the action of former Northern assemblies relative to "loyalty and rebellion." Today's action by the Northern assembly seeks to remove all the hard feeling engendered in those days.

Cloudburst Destroys Towns

Denver, Col., May 21.—A cloudburst at the head of the Cache La Poudre river caused that stream to overflow its banks, and meager reports received here indicate that great damage has been caused by the flood. The rush of the flood practically wiped out the towns of Livermore and Laporte, respectively fourteen and three miles above Fort Collins. It is reported that one person was drowned at the former place.

Closed the Deal

Washington, May 21.—The treasury department has drawn a warrant for \$9,000,000 in favor of J. P. MAKING GOOD SHOW

Indiana's Rural Schools Exhibit Attract Attention at World's Fair.

AS GOOD AS THE BEST

State Department of Public Instruction Paid Particular Attention to This Class of Exhibits.

Among the Most Attractive Features of the Display Made by Indiana.

Indianapolis, May 21.—The exhibition from the rural schools of Indiana is attracting much attention from the educators at St. Louis, according to State Superintendent F. A. Cotton, who has been in St. Louis arranging the display. The rural school exhibits, he says, are more artistic and more nearly complete than are the like exhibits from other states. By tonight the Indiana exhibit will be completely arranged. It is among the first to be put in place.

Deputy State Superintendent McTurnan and Superintendent Mills of the Crawfordsville school, are doing the final work in putting up the exhibit. It will be at least a month before the school exhibits are all in place. The exhibits from the counties of Benton, Laporte, Porter and Knox are regarded as among the most attractive features of the Indiana display. The department of public instruction paid particular attention to the exhibits from the rural schools, leaving the trained teachers in the city schools to do their own work. Mr. Cotton says that the exhibits from the Indiana cities are equal to those from the cities of other states.

WOMAN IN THE CASE

Benson Worried Himself Inane Over Baseless Charges.

Kokomo, Ind., May 21.—Not until the funeral party accompanying the body of S. T. Benson, the Kokomo man who committed suicide at Indianapolis, Kan., arrived in this city, were any of the particulars known concerning the motive for the deed or the method by which his suicide was accomplished.

There seems to be a dark story back of the suicide. Benson left a note to his wife, stating that a conspiracy was on to blackmail him, threatening him with disgrace and charging him with a criminal act of which he was entirely innocent. He said he saw no escape save in self-destruction; that he had been harassed, threatened and worried until he could stand it no longer, and that he had determined to end it all by taking his life. Investigation of the suicide made by lodge friends in Independence disclosed the fact that he had been having trouble of the kind indicated in the note, and that there was a woman at the bottom of it. It is said that Benson worried himself insane under the threats that had been made against him.

Richmond Hospitality

Richmond, Ind., May 21.—Plans for the entertainment of the 2,000 delegates to the state Sunday school convention, which will meet in Richmond June 21-23, will be completed at a meeting of the executive and entertainment committees next week. The entertainment committee is composed of 100 members and it has begun the work of securing accommodations for visiting delegates. One thousand homes of Richmond people will be thrown open to the delegates and they will be cordially received by the citizens in general.

Killed a Tramp

Coatesville, Ind., May 21.—Roscoe Havens, farmer living near here, returned home to find that his house had been robbed of \$40. Taking a shotgun he started out looking for the robbers. He encountered three tramps and demanded their surrender. One started to run and Havens shot him in the head, killing him instantly. The men are not believed to have been implicated in the robbery. Havens is under arrest.

BIG STRIKE ON

The "Open Shop" Is the Issue at Minneapolis.

Minneapolis, May 21.—Notice served on the Minneapolis trades unions leave them no alternative but to go on strike, 5,000 strong, Wednesday, May 25.

The open shop system will be started by the contractors allied in the builders' and traders' exchange at that time, they declare, regardless of what the unions do.

The officials of the unions say that as soon as a non-union man is put to work, all union men will withdraw from the job, even if every man must go out. The action of the employers is more severe than anyone outside of their organization had dreamed.

Covington Visited by Burglars.
Covington, Ind., May 21.—A series of burglaries has occurred in this city. Four stores and one saloon were entered. William Dennis, grocery; Thos. Coffing, hardware; Layton & Billand, grocery; James Merriman, butcher, and Berry Shuler, saloon. Merriman's loss is \$28 cash and a large amount of cigars, tobacco and a small amount of money. No trace of the burglars has been found. The work shows that the parties were familiar with the stores.

Postoffice Thieves.
Bloomington, Ill., May 21.—Thieves entered the Roberts postoffice, blew the safe and secured \$275 in stamps and cash. They escaped on a railroad velocipede.

The receipts of the postoffice department for the fiscal year ending July 1 next will be approximately \$44,000,000. In 1903 the receipts of the postoffice department were \$28,400,000.

Gen. Kuroki's official report says that 861 Japanese were killed and 783 wounded during the battle along the Yalu river. He adds that the Japanese buried 1,933 Russians found dead on the battlefield.

The diver dies without air to breathe. The consumptive dies without lungs to breathe the air, or of lungs rendered incapable of breathing by disease. The blood as it flows in and out of the lungs indicates the consumptive's progress. As the lungs grow weaker less oxygen is inhaled and the blood changes from scarlet to purple. Oxygen is the life of the blood as the blood is the life of the body.

The effect of Dr. Pierce's Golden Medical Discovery upon weak lungs is to strengthen them, to enable the full oxygenation of the blood, arrest the progress of disease, and heal the inflamed tissues. Lung diseases have been and are being cured by "Golden Medical Discovery," in cases where deep-seated cough, frequent hemorrhage, emaciation, weakness, and night-sweats have all pointed to a fatal termination by consumption.

"Some years ago I was almost a help-less victim of that dread disease—consumption," writes Mr. Chas. Fross, P. M., of Sika, White Co., Ind. "I was confined to my room for several months; my friends and neighbors had given up all hope of my recovery, until one day a friend advised me to take Dr. Pierce's Golden Medical Discovery, and after I had taken the contents of the second bottle I began to improve. After taking six bottles I was, I honestly believe, delivered from the grave and entirely cured. I am now a strong and hearty man."

Township Primary Election.

Notice is hereby given to the republicans of Jackson township, Jackson county, Indiana, that the republican township primary election will be held Saturday, June 18, 1904, on which date a candidate for township trustee and a candidate for township assessor will be nominated.

By order of the township committee, C. D. BILLINGS, Chairman.

MR. BRYAN is irreconcilable and defies the reorganizers to say that their own example in 1896 and 1900 is not a good one to follow.

THIS is just the kind of weather we have all been hoping for the past month. A little late in getting here but it is all right when it comes.

Dowie announces that he will make another attempt to save New York. His first attempt was a miserable failure but he has different plans for his next visit. New York needs regenerating badly enough but it is too big an undertaking for Dowie.

THE Illinois republican convention has adjourned until May 31 after trying for a week to break the dead-lock and nominate a candidate for governor. Yates led by nearly a hundred votes on the 5th and final ballot. The vote remained about the same on every ballot taken.

THE movement for a more respectful observance of Memorial day is meeting with favor throughout the state. The tendency of recent years to transform Decoration day into a sort of picnic holiday has grown distasteful to the old soldiers and the people generally who believe that this is contrary to the original purpose of this day.

IT begins to look like the Missouri democrats will nominate Joseph W. Folk for governor. All the grafters in St. Louis and those who followed that brand of statesmanship in the Missouri legislature were against him but the masses of the party were for him. Now if he should have a republican legislature to help him out something worth while would be accomplished in that state.

RURAL FREE DELIVERY.

Extension Has Been Rapid Especially in Indiana.

There will be 25,000 rural routes in operation throughout the United States on July 1. Although petitions are coming in at the rate of 1,000 a month, the department has been so active in extending the service that there are now less than 4,700 applications awaiting action. More than 11,000 routes have been installed during the past year.

Plans already made for the extension of rural free delivery during the next fiscal year provide for the establishment of several additional county systems in Indiana. The State has been treated well in the establishment of a general system in counties, but the action of Fourth Assistant Secretary in adopting a policy of giving attention to individual routes resulted in postponing the installation of several county systems, where they had been formerly promised by Machen, late superintendent of free delivery. The department will soon be in a position to announce in detail its plans relating to the extension of rural free delivery under the new appropriation.

Now comes a report that Harry S. New may be made the vice-chairman of the republican national committee and placed in charge of the Chicago headquarters. Good man for that responsible place.

FOR TWO Sundays Seymour has been a "dry town" and the prospects are for the same condition tomorrow. No cases of suffering have been reported to the police or charity board and none are likely to be.

Methodist Conference.

The district conference of the Seymour District will meet in Hartsville next week. The opening service will be a sermon on Monday night by Rev. R. R. Bryan, of Franklin. An excellent program has been arranged and the people of Hartsville will give the conference a royal welcome. Presiding Elder J. M. Baxter is the presiding officer of the conference which is composed of all the pastors, local preachers, exhorters, and one Sunday school superintendent. Epworth League president and class leader from each charge in the district. Examination of candidates for license to preach takes place here. Also renewal of the license of local preachers and exhorters and examination of candidates for admission into the annual conference.

Pastor Believes in Publicity.

Rev. S. B. Ervin, pastor of the United Brethren church at Greenfield, believes that advertising pays in spiritual as well as in material life; and he is using it as a means to the end of getting people to church and save their souls. He has engaged space in a daily paper in Greenfield and states cogent reasons why people should attend services. He urges attendance at prayer meetings, and enjoins people to bring their bibles. The advertisement concludes with "watch the papers for special notices." Rev. Ervin will find that newspaper advertising pays big dividends.

Odd Fellows Assessed.

Every Odd Fellow and every Daughter of Rebekah will be interested in knowing that the Grand Lodge L. O. O. F., in session at Indianapolis Thursday, voted an assessment of fifty cents upon each member of the subordinate lodges within the state and approved the action of the Rebekah assembly in voting an assessment of thirty cents upon its membership for the purpose of raising a fund with which to construct a new building upon the I. O. O. F. Home grounds at Greensburg.

DIED.

RUDDICK—Mrs. Julia A. Ruddick, wife of Scott Ruddick, died at the family residence, 219 South Bill street, at 10 o'clock this Saturday forenoon, the result of paralysis. Her age was 65 years, 7 months and 14 days. She was born in Washington county in 1838. Funeral services from the residence at 3 o'clock Sunday afternoon. The remains will be taken overland Monday morning to Plattsburg, Washington county, for burial.

Variety of Reading.

Local newspaper readers have no cause for complaint these days. If they get tired of reading about the Chinese prince they can turn to the Rising Sun and Bedford murders, or if their taste does not so incline them there are the proceedings of the medical mac, the funeral directors, the Odd Fellows—and always and forever a lively chapter of politics. If there were no Eastern war there would still be something doing in the paper.

Murder trial Next Week.

The trial of Mrs. Cora Weeks at Brownstown next week will attract a great deal of attention. She is charged with the murder of her own mother, having been indicted along with her husband by a Lawrence county grand jury. She was tried once at Bedford but the jury disagreed. Then the case was venued to this county.

THE BEGINNING OF THE GOSPEL.

FLINY'S EPISTLE TO TRAJAN, ROMAN EMPEROR, WRITTEN IN BYTHINIA ABOUT A. D. 112

"SIR:—It is my constant method to apply myself to you for the resolution of all my doubts, for who can better govern my dilatory way of proceeding or instruct my ignorance? I have never been present at the examination of the Christians (by others) on which account I am unacquainted with what uses to be inquired into, and what and how far they may be punished; nor are my doubts small, whether there be not a distinction to be made between the (ages of the accused) and whether tender youth ought to have the same punishment with strong men? Whether there be not room for pardon upon repentance, or whether it may not be an advantage to one that had been a Christian, that he hath forsaken Christianity? Whether the bare name without any crime besides, or the crimes besides, or the crimes adhering to that name, be, to be punished? In the meantime I have taken this course about those who have been brought to me as Christians; I have asked them whether they were Christians or not? If they confessed they were Christians, I asked them again and a third time, intermixing threatenings with the questions; if they persevered in their confession I ordered them to be executed; for I did not doubt but, let their confessions be of any sort whatever, this positiveness and inflexible obstinacy deserved to be punished. There have been some of this mad sect whom I took notice of in particular as Roman citizens, that they might be sent to that city. After some time as is usual in such examinations the crime spread itself, and many more cases came before me.

A libel was sent to me, though without any author, containing many names (of persons accused.) These denied that they were Christians now, or ever had been. They called upon the gods and supplicated to your image, which I caused to be brought to me for that purpose, with frankincense and wine; they also cursed Christ, none of which things it is said, can any of those that are really Christians be compelled to do. So I thought fit to let them go."

ALUMNI RECEPTION.

Enjoyable Meeting of the High
School Graduates.

The annual meeting and reception
of the high school alumni association
at Society Hall last night proved a
very enjoyable event. The attendance
was large and the spirit of good fel-
lowship prevailed in large measure.
The program arranged by the com-
mittee in charge was well received.
At intervals during the evening John-
son's orchestra supplied some excel-
lent music.

About 8:30 order was called by S.
V. Jackson, the president, and Prof.
H. C. Montgomery was called to for-
mally intro uce the class of 1904 to the
alumni and this he did in a very clever
address. In the course of his re-
marks he said that the graduates of
the high school now numbered 334—105
boys and 229 girls.

Frank V. Smith spoke for the alum-
ni welcoming the new class in a good
address.

Don A. Bollinger responded for the
class of 1904 in a manner quite credi-
table.

A duet by Miss Sud'e Mills and Miss
Katie May Cordes was well received.
The vocal solo by H. G. Stratton
was heartily applauded and he re-
sponded to an encore.

C. H. Rutherford gave a pleasing
recitation and was recalled and gave
another brief selection.

A vocal solo by Miss Nina Weeks
was very cleverly rendered.

A. D. Shields, of the class of '92,
made some very apt remarks relative
to the pleasures and benefits derived
from the alumni association.

Miss Dorothy Sandau rendered a
beautiful vocal solo and responded to
an encore.

Hon. O. H. Montgomery was intro-
duced and gave a very timely talk
relative to education and the public
schools, past and present.

The high school chorus, composed
of a dozen or more boys, gave a se-
lection which was so well received that
the boys were recalled the second time.

The following officers were elected:
President, Ben F. Schneck, vice presi-
dent, John Sherron, Secretary, A. D.
Shields, treasurer, Don A. Bollinger.

Then followed the lunch, a feature of
the evening for which the committee
had provided well.

After this dancing was engaged in
for an hour or two.

ages against the railroad company.

D. C.

Prof. W. B. Powell, of Washington, D. C., is one of the best known educators in the country. For fifteen years he has been Superintendent of the Public Schools of Washington, which is considered the best school system in the United States. Professor Powell is the author of a number of school books which are used throughout the United States.

This well known gentleman does not hesitate to recommend Peruna to his countless friends and acquaintances all over the United States. In a recent letter from 1410 N street, N. W., Washington, D. C., to Dr. Hartman, he says: "Persuaded by a friend I have used Peruna as a tonic, and I take pleasure in recommending your remedy. Peruna is indeed a good medicine and should be in every household."—W. B. POWELL.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

IF YOU THINK YOU CAN AFFORD
to delay giving attention to your eyes and not suffer by it, you are very badly mistaken. From little troubles large ones grow and the old adage of "a stitch in time saves nine" is full of meaning in eye sight troubles. You CAN BETTER AFFORD to put off almost anything else in preference to your eyes. Daily the expression comes from the lips of some patient: "I wish I had not waited so long. Be advised and have the eyes looked after now, not next week, but now. Mr. and Mrs. Harsch, Optometrists, Eyesight Specialists. No. 74 N. Chestnut street.

An Open Letter.

From the Capin, S. C., News:
Early in the spring my wife and I were taken with diarrhoea and so severe were the pains that we called a physician who prescribed for us, but his medicines failed to give any relief. A friend who had a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy on hand gave each of us a dose and we at once felt the effects. I procured a bottle and before using the entire contents we were entirely cured. It is a wonderful remedy and should be found in every household. H. C. Bailey, Editor. This remedy is for sale by C. W. Milhous.

Recent Developments at Port Arthur Put Check on Their Operations.

CHANNEL IS REOPENED

This With Destruction of Two Warships Has Exerted a Deterrent Influence.

No Confirmation of Reports of a Big Land Battle at Feng Wang Cheng.

London, May 21.—Nothing in the dispatches received in London regarding affairs in the far East reconciles the discrepancies between the Japanese and the Russian official accounts of Japan's naval disaster. One Tokio report says the battleship Hatsuse was destroyed by two mines chained together. Vice Admiral Togo's suggestion that it was the work of submarine boat is considered extremely probable. It is recognized on all sides that the fact that the Port Arthur channel has been reopened and the proved dangers of the navigation of these waters must put a great check on Japanese landing operations. A Tien Tsin correspondent states that five Japanese transports bound for Dairen were obliged to return to Maji on this account.

Regarding land operations, there is no confirmation of the rumors that a big battle has been fought in the neighborhood of Feng Wang Cheng. The view held here is that, after testing the strength of the Russian position at the Mao Tien pass, General Kuroki made an orderly retirement, and that his flanking movement in the direction of Mukden continues.

On the other hand, a correspondent at Mukden claims that the Russians are now fully aware of the Japanese plans of attack. The uncertainty which has hitherto characterized the Russian campaign has ceased, the correspondent says, and severe fighting is imminent. A correspondent at New Chwang says he hears that a clever strategic flanking movement has been executed by the Russians threatening the advanced position of the Japanese east of Liao Yang, and compelling them to retire on Feng Wang Cheng. A New Chwang correspondent asserts that the Japanese are now able to land anywhere on the western coast of the Liao Tung peninsula without serious opposition from the Russians.

WEATHER CONDITIONS

Have Been Particularly Unfavorable to Spring Trade.

New York, May 21.—Bradstreet's weekly review of trade today says: Weather conditions are still the apparent drawback in the trade and crop situation. Temperatures have been too cool to allow of free distribution of spring and summer goods at retail, and they likewise retard germination and growth of crops, though permitting good progress in seeding in various sections of the country. In jobbing circles the feeling is that the spring trade is past and gone, and efforts are now concentrated on fall business, reports as to which are fairly good, though not equal to a year ago. The industrial situation is rather quieter, but the most serious strike of the year, that of masters and pilots of lake vessels, continues with no prospect of settlement. This has practically killed transportation on the lakes and the coal, ore and grain trades exhibit the effect of the stoppage of lake traffic. Railway earnings show recessions from last year.

WILL TRY IT AGAIN

Illinois Republican Convention Adjourns for a Breathing Spell.

Springfield, Ill., May 21.—All candidates for governor before the Republican convention agreed yesterday to an adjournment until one week from next Tuesday. The last ballot taken was the 58th, and resulted in no important changes. When the convention broke up the delegates rushed from the hall, cheering the band, which began to play "Home, Sweet Home." Candidates and delegates lost no time in getting out of town. All of the headquarters in the Leland hotel were closed. The candidates before leaving all expressed themselves as being well satisfied with the recess.

It seems to be the general opinion that there is no advantage or disadvantage in it for any of them. The plans of the candidates for the interim have not been disclosed, but their energies, it is expected, will be devoted chiefly to keeping their forces intact.

Opposition to Union.

Dallas, Tex., May 21.—It has become evident at the sessions of the general assembly of the Cumberland Presbyterian church here that the plan "to unite that body with the Presbyterian church of the United States of America" will meet with considerable opposition.

Negro Murderer Hanged.

Raleigh, N. C., May 21.—Alfred Daniels, a negro, the murderer of F. G. Simmons, father of United States Senator Simmons, of this state, was hanged for his crime here. Daniels said nothing on the scaffold excepting that he had been forgiven for his crime.

Uncle Sam Going After an Infamous Morocco Bandit.

Washington, May 21.—Rear Admiral Chadwick has been ordered to send as soon as possible a warship to Tangier, Morocco, to demand the release of an American citizen named Perdicaris, who has been captured and taken to the mountains by the famous Moroccan bandit, Fraissoult.

Acting Secretary Loomis has instructed Consul Gummer by cable to act with the greatest vigor and demand of the Moorish government that it take the most sweeping measures to secure the release of Mr. Perdicaris, even if necessary to accede to the terms of the brigands. After consultation with Admiral Taylor, chief of the navigation bureau, the naval measures resolved on were strengthened considerably. Admiral Chadwick, when he reaches Faval in a few days, will receive orders to proceed with the whole South Atlantic squadron to Tangier, while Admiral Jewell, with the newly formed European squadron, who is about three days behind Admiral Chadwick, will be ordered to follow to Tangier if the emergency still exists.

Caring for Captives.

Tangier, Morocco, May 21.—Raisuli, the brigand chief who captured Messrs. Perdicaris and Varley, has sent a number of his men to obtain bedding and linen for the prisoners. Mohammed El Torras, the representative of the sultan at Tangier, is negotiating with Raisuli.

"My mother has been a sufferer for many years with rheumatism," says W. H. Howard, of Husband Pa. "At times she was unable to move a step, while at all times walking is painful. I presented her with a bottle of Chamberlain's Pain Balm and after a few applications she decided it was the most wonderful pain reliever she had ever tried, in fact, she is never without it now and is at all times able to walk. An occasional application of Pain Balm keeps away the pain that she was formerly troubled with." For sale by C. W. Milhous.

"In the spring of 1901 my children had whooping cough," says Mrs. D. W. Capps, of Capps, Ala. "I used Chamberlain's Cough Remedy with the most satisfactory results. This remedy keeps the cough loose, lessens the severity and frequency of the coughing spells and counteracts any tendency toward pneumonia. For sale by C. W. Milhous.

Agents for Jackson county.

TESTIMONIAL.

MESSRS. WATSON & CO., Indianapolis, Ind., Agents. March 1, 1904. Dear Sirs:—Replying to your query as to whether I am pleased with the F. P. lighting system which you installed for me fifteen months ago, I will say that it has never given me one minute's trouble nor one dollar's expense. It gives the best light I ever saw for interior use. The actinic rays are of such a character as to make it very desirable when the perfectly natural colors of objects are to be distinguished without confusion.

As to cost of maintenance, I think my experience, based upon close observation, will warrant the statement that it is under \$80 per annum, and our store is open every day in the year until 11 o'clock p. m., except on Sunday, one hour less. Under the same condition, and with the most approved facilities for the distribution of light, our bills for illuminating gas were about \$200 per year, and for electric light (arcs) about \$400 to \$420 per annum, and at no time have we had more than one-half the light we now have.

I am particularly pleased with the light, and the fact that it is so economical makes it the more desirable.

As you can readily figure, I paid for my apparatus and cost of light in about four or five months. Yours truly, R. I. EADS.

Is an easy thing when we quote our prices on building lumber. A pleasant surprise always awaits the contractor and builder when he visits our yard after getting prices elsewhere and seeing the superior quality of high grade lumber, hard-wood trim, flooring, laths, shingles and that we are selling at bed-rock prices. Our lumber is of high quality, well seasoned and beyond competition, price considered.
